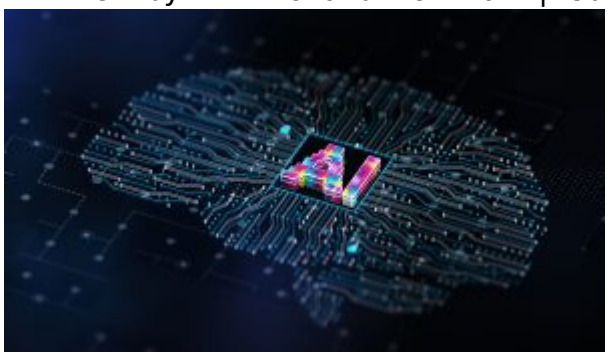
Intelligent Medicine Radio for June 21: ChatGPT is Making Us Dumber

written by Dr. Ronald Hoffman | June 23, 2025



First of its kind brain study shows ChatGPT is making us dumber; Eradicating “ulcer bug” H. Pylori with triple-therapy may increase risk of Alzheimer’s, Parkinson’s; Alternatives for prescription blood thinners? Long work hours may foster deleterious brain changes; Blood in urine—why is it such a big deal? Suggestions for a dog with panic attacks ahead of weather fronts.
