Intelligent Medicine Radio for April 26: EMF Radiation

written by Dr. Ronald Hoffman | April 28, 2025

Remnant cholesterol as a robust predictor of heart attack, stroke; Sudden cardiac death linked to long-term antidepressant use; Is your EV zapping you with EMF radiation? Low-fat diets—and cholesterol drugs—may sap men's testosterone; Will "Gentle Cure"—a nonsurgical treatment—supplant standard Mohs surgery as a treatment for common skin cancers? Nearsightedness is skyrocketing—but a simple method may prevent it; And more!
