Intelligent Medicine Radio for October 18: The Craving for Alcohol

written by Dr. Ronald Hoffman | October 20, 2025

Thymic peptide for cancer; What is “orthomolecular psychiatry”? The craving for alcohol may be programmed from our primate origins; New options for knee pain; Popeye was right to power-up with spinach; Conquering inflammation; Methane-predominant SIBO; Unnecessary back surgery on seniors is rampant; Medicare Advantage patients often relegated to inferior cancer surgery; And more!
