Intelligent Medicine Radio for March 7: “Culinary Medicine”

written by Dr. Ronald Hoffman | March 9, 2026

Dentists continue to write prescriptions for potentially deadly antibiotic; A man, in love with his Chatbot, commits suicide to join her in the virtual world; Olive oil is calorie dense—but its consumption results in weight loss; Doctors-in-training embrace “culinary medicine”; As Administration relaxes their regulation, PFAS compounds shown to accelerate biological aging; Biopsies reveal microplastics in 90% of prostate cancers; And more!
