Intelligent Medicine Radio for June 6: Motorized e-scooter use needs to be regulated NOW!

written by Dr. Ronald Hoffman | June 8, 2026

The “Enhanced Games”, with no-holds-barred performance-enhancing drugs, yields scant advantages over “clean” contests; Does saturated fat increase insulin resistance? Can a heart attack victim avoid statin use with CoQ10? Omega-3 fish oil shows promise vs. type 2 diabetes; Motorized e-scooter use needs to be regulated NOW! Researchers test the “5 second rule” for dropped food; And more!
