

How I Saved My Joints in Just 7 Days – And Gave My Skin a Boost Too!

This article contains information from one of our trusted sponsors.

If you're like me – and millions of other Americans – when you hit your 50s, your joints let you know it. Aches and stiffness, less mobility... Even getting off the couch suddenly comes with its own challenges and a bunch of unwanted sound effects!

Add to that a dip in skin health and appearance... more fine lines and wrinkles... and suddenly getting older becomes a bit of a drag.

But I'll let you in on a secret. And let me apologize in advance if it makes you a little bit jealous.

I'm in my 70s and the only “snap, crackle, and pop” I hear is in my cereal bowl! My joints feel great, I'm active and feel energetic... And not that I'll win any beauty contests, but my skin is smooth and supple too.

Yup, it's true – I've found a veritable fountain of youth – a **Molecule of Youth**, I like to call it – that has given me a new lease on life. And it **only took 7 days** for the effects to kick in... Effects that have lasted through every day since I committed to taking one specific nutritional supplement for the health of my joints and skin: **Ultimate H.A.® 7** from Purity Products®.*

The Power of a Special Hyaluronic Acid from Collagen

At the heart of **Ultimate H.A.® 7** is **Hyaluronic Acid (H.A.)**. You may have heard of Hyaluronic Acid in news stories about the Japanese village of Yuzurihara, where living beyond the age of 85 is pretty commonplace. In this village, people age filled with vibrant health, enjoying great joint mobility, healthy vision, and unusually smooth and well-toned skin. And science has traced this all back to a diet rich in Hyaluronic Acid.

H.A. is the crucial space-filling, hydrating, gel-like substance found in our body's connective tissues, including those in our skin and joints. It's also found in high concentrations in our eyes. Hyaluronic Acid functions as the “glue” that keeps your cells together. **It's a key component of collagen** and fills the spaces between your cells. Binding with water, Hyaluronic Acid forms a gel that provides structure to your organs and joint matrix.*

Unfortunately, the amount of H.A. that is naturally inside of us declines as we get older, leaving our joints and skin thirsty for more. So, you can see that finding a

source of H.A. to give your body on a daily basis is vital to supporting joint and skin health.*

So, am I saying that you should just find some Hyaluronic Acid and you're good to go? No, I'm not. Because just like the food you eat and the clothes you buy, the **source, quality, and composition of H.A. are vitally important** to the benefits you can get from this amazing substance.

That's why **Ultimate H.A.® 7** uses a scientifically vetted, patented source of Hyaluronic Acid called **BioCell Collagen®**. Now, you've probably heard the hype about collagen, but not all collagen is created equally. BioCell Collagen® is a concentrated bioavailable and bioactive matrix of naturally occurring molecules that play a vital role in your body's ability to maintain **healthy connective tissues, flexible joints, and youthful looking skin.***

Here's the science: the BioCell Collagen® in **Ultimate H.A.® 7** combines high concentrations of hydrolyzed type II collagen and low molecular weight glycosaminoglycans including Hyaluronic Acid and Chondroitin Sulfate in a way that is readily absorbed through the gastrointestinal tract. This greater absorption rate causes **Ultimate H.A.® 7** to **nourish and revitalize your joints and tissues.***

(For the record, glycosaminoglycans are amino sugar compounds that are a chief component of connective tissue that play **a key role in the development, repair, and replacement of cells.**)

The 7-Day Joint Comfort Factor of AprèsFLEX® Plus Key Co-Factors

The science behind BioCell Collagen® and Hyaluronic Acid is impressive – but with **Ultimate H.A.® 7 Purity Products®** takes things several steps further by adding some very key ingredients. Primary among these is **AprèsFLEX®**, a patented extract of the herb *Boswellia serrata*. Clinical studies show that supplementing with 100 mg of AprèsFLEX® – the amount in **Ultimate H.A.® 7** – provide **significant support for healthy joint comfort, function, and mobility in as little as 5 to 7 days of use!*** AprèsFLEX® is the next generation of *Boswellia* extract, going beyond ordinary *Boswellia* to improve bioavailability and bioactivity. Now you can see why we added the "7" to the name **Ultimate H.A.® 7!**

Plus, **Ultimate H.A.® 7** pours on the benefits by adding more key nutrients to the matrix that support your skin and joints:

- **Vitamin C** – to spur collagen formation in your connective tissue*
- **Quercetin** – a powerful antioxidant that helps protect your skin and joints from the aging effects of free radicals on cells and body tissue*
- **Inositol & Lecithin** – vital components of all cell membranes*

When you put it all together, **Ultimate H.A.® 7 is the simple solution for the healthy aging of your joints and skin you can use every day!** It's backed by science, is built around a clinically tested form of BioCell Collagen® rich in Hyaluronic Acid, adds the 7-day action of AprèsFLEX®, and is rounded out with key nutrients to create a whole that is greater than the sum of its parts.

And here's another great feature of **Ultimate H.A.® 7**: as a dedicated reader of Dr. Hoffman's website, you can get a **FREE bottle of Ultimate H.A.® 7** to try for yourself – you just pay \$6.95 for shipping. Just click here and Purity Products® will send it

to you today.
