

Medical evolution will affect you, but how?

Those lazy, carefree days of summer '14 are drawing to a close, so are you ready to jump-start your own fall health program?

If you're a fan of **Intelligent Medicine**, here's an event that I know you're going to love:

THE EVOLUTION OF MEDICINE SUMMIT IS HERE!

Evolving medicine means that we are learning new things and using new techniques constantly. If you aren't constantly educating yourself about the evolution of medicine, how will you expect to stay at the forefront of your own health?

The Evolution of Medicine Summit will shine a light on the work of more than 30 innovators leading these changes and set a unique vision for a more empowered, proactive and patients-value focused health care system.

Whether you're a health professional or someone who wants to be healthier, **The Evolution of Medicine Summit will show you the future of health care.** Plus, it's ONLINE and FREE from Sept. 8-15, 2014.

This Evolution of Medicine Summit will provide you with the information you need to:

- Understand what causes disease and how to disease-proof yourself
- Elevate you and your family toward optimum health
- Make the most out of the next generation of health technology

Health professionals and doctors will also learn to:

- Understand the body as a complex and integrated system
- Innovate with proven new care models (health coaches, telemedicine, group visits, etc.)
- Learn effective strategies for reversing and preventing chronic and autoimmune disease

Navigate your way through the world's overwhelming amount of health information when you attend The Evolution of Medicine Summit!
